

# Box & Bullet Notes

For each section, write the section number and name.

Draw a box with three bullets. Write the BIG IDEA (main idea) from that section in the box. Write down at least three details / facts from that section that support the BIG IDEA (bullets).

For example:

## 13.1 Introduction

BIG IDEA:

● detail / fact

● detail / fact

● detail / fact

REPEAT FOR EACH SECTION.

Section 1 will be the most difficult, as it is the introduction and it usually discusses everything in the chapter. For the box, write down what the chapter is about and then bullet three things you will be learning in the chapter.
