

PROCESSING 17

Part 1: Arrange the following statements in the boxes to show which happened first, second, and so on, creating a flowchart in which each event caused the next event.

- Landowners wanted to spend money on luxury items.
- Large cities developed.
- A new type of rice allowed farmers to plant at least two crops of rice per year.
- Small traders brought more luxury items to local markets.
- Rice production increased.
- Landowners became wealthier.
