## The Split and Fall of the Roman Empire

Use the map on page 40 of the Nystrom Atlas of World History to label the following:

Remember, cities need a dot next to them. According to the key, capital cities need a star next to them.

Please label cities using upper and lower case letters, but label countries in ALL CAPITAL LETTERS.

You may use pencil to find and label cities, but the pencil letters need to be gone over with black pen or marker BEFORE you color the map.

- Atlantic Ocean
- Mediterranean Sea
- Red Sea
- Black Sea
- Caspian Sea
- Rome
- Constantinople
- Jerusalem
- Athens
- PERSIA
- SPAIN
- GAUL (France)

Then, draw a line separating the Western Roman Empire from the Eastern Roman Empire (AKA Byzantine Empire).

Finally, color in the western and eastern empires, matching the key to the colors you choose. Color the water blue and mark the key. Then color all non-Roman “other” lands tan.
