**D**o you sudoku? This addictive puzzle from Japan has become hugely popular in the U.S. If you aren't already a fan, here's how to play:

The puzzle grid is divided into 9 large squares, each of which is divided into 9 small squares. Each row and each column also has 9 squares. Your goal is to write a number from 1 to 9 in each square. Each digit can be used only once per row, column, and square.
